JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

V. *Part of a Letter from Mr. Aubry, F. R. S.  
Dated Feb 24. 1698. to Sir John Hoskyns,  
V. P. of the R. S. Concerning a Medicated  
Spring in Glamorganshire.*

**I**N *Lancarim* (the next Parish) is a Medicated Spring, much frequented from several Counties, time out of Mind, for the Kings Evil. There is a Rill of about an Ell broad between Two Collines, covered with Wood; about Twelve Yards from this Spring, the Rill falls from a Rock Eight or Nine Foot high, which makes a grateful Noise; the Spring (which is exceeding clear) comes out of a pure White Marle, I thought theré had been no White Marle in *Wales*, for the Earth is Red. Above this Spring (about a Yard broad and deep) spreads an old Oak with Hoary Mofs; on the Boughs whereof Two Crutches. A Graduate Doctor hereabout imputes the Vertue of this Spring to the Lime Stone, and says one of the chief Ingredients of the Doctors, for the Kings Evil, is Lime-Water.

VI. *Several Observations in the North Islands  
of Scotland. Communicated to the Royal  
Society by Mr. Martin Martin.*

I. **A**LL Tribes of Fowls are observed to have their Sentinels, especially in the Night, the Watchfulness of the Scart is true to a Proverb; I have known one, who by surprizing the Sentinel, caught Three Hundred in a Night.
